

U. F. A. and U. F. W. A. Convention Sat. May 17th

At a meeting of the directors of the Wainwright U.F.A., and U.F.W.A. Constituency Association held in the New Wainwright Hotel, Wainwright, on Saturday, May 3rd, it was decided to hold the Annual Meeting of the Association in the Masonic Hall, Wainwright, on Saturday, May 17th, commencing at 10 A.M.

Every director was present at the meeting and an interview with Mr. C. T. Hill, President of the Association, revealed the fact that the U.F.A. organization in the Wainwright Constituency is now in a stronger position than it was at the time of the last election in 1926. Since that time, Mr. Hill stated, a number of new locals have been organized and some of these are among the most active in the riding. The directors are confident that the Wainwright Constituency will again return a U. F. A. member at the forthcoming election on June 19th.

The Annual Meeting was called on May 17th in order that the Candidate selected will have sufficient time to completely cover the whole of the constituency.

Mrs. A. M. Postans, Secretary of the Association reports that a tentative program has been drawn up by the board which will be of interest to our readers.

The morning session will commence with community singing of appropriate patriotic songs after which the meeting will be officially opened by an Address of Welcome given by Mayor Martin L. Forster of Wainwright. This will be followed by the appointment of a convention chairman, and the selection of various committees and the reading of the minutes of the last annual meeting.

The President's annual report will be given by President C. T. Hill followed by the Secretary's report and the Financial Statement. A musical number is slated to follow the above reports after which the sitting member, Mr. J. R. Love will give the first part of his annual report dealing with the Natural Resources and the vari-

ous departments of Government. It is anticipated that the reports of committees will bring the convention to the noon hour when an adjournment will be made for lunch.

The afternoon session will open with some musical numbers after which Mr. Love will give the second part of his report dealing entirely with the important subject of Provincial Public Finance.

The Board has set 3 p.m. as the hour for receiving nominations for a candidate to represent the U.F.A. in this year's campaign. The election of the candidate and the election of new officers of the association are the next items on the program. The balance of the session will be devoted to resolutions and unfinished business.

When questioned as to whether any cabinet ministers or outside speakers would address the meeting Mr. Hill stated, that it was the wish of the board to have Premier Brownlee address a meeting in Wainwright later in the campaign but that in the past delegates had expressed an opinion that the Annual Meeting should be more of a business meeting in which the delegates would take more part. Since no evening session is planned it was decided by the board that the day's program would be quite full without bringing in any outside speakers.

This statement naturally raised the point as to whether the meeting on the 17th would be open to the public. Mr. Hill replied, "By all means, we want everyone to come who is free to do so whether he or she wears the U.F.A. colors or not." The Masonic Hall on Main Street, Wainwright, is a new building built to accommodate a large audience.

Speech making is well advanced this year it is anticipated that in addition to the accredited delegates, a large attendance of U.F.A. and U.F.W.A. members from all parts of the constituency will attend the Annual Meeting.

CHURCH NOTICES AND ACTIVITIES

IRMA UNITED CHURCH

Rev. John R. Geeson, M.A., B.D.,
Pastor
SUNDAY
Sunday School at 11 a.m.
Public Worship at 8 p.m.
Alternate Sundays
Albert School at 11 a.m.
Strawberry Plains at 11 a.m.
Alma Mater at 3 p.m.
Roseberry at 3 p.m.
Trail Rangers on Monday 7.30 p.m.
C. G. I. T. Tuesday 7.30 p.m.
Mid-week Service Wednesday 8 p.m.
Ladies Aid 2nd and 4th Thursdays.
W. M. S., every third Thursday.

UNITED CHURCH NOTES

Services next Sunday at Strawberry Plains and Roseberry. Topic: "A Mother's Song."

There will be a special Mother's Day service in connection with the Sunday School at both Irma and Roseberry.

The Sunday evening service in town will be conducted by the Girls of the C. G. I. T. assisted by the Pastor. There will be special music and hymns for the occasion.

The W. M. S. will meet at the home of Mrs. McFarlane on May 15th. All ladies are invited to attend.

SUNDAY SCHOOL NEWS

Next Sunday, May 11th is Mother's Day in the Irma Sunday School of the United Church, and we have arranged a special programme including a pageant by about eight of nine of the members of the school. We wish to extend a hearty invitation to all mothers, and especially to mothers of our Sunday School pupils. We will decorate with real cut flowers, the oldest mother, the youngest mother, and the mother with the most children present. Two Sundays ago we broke a record with 86 present; last Sunday there were 87. Come and see us break the Mother's Day record of 92, set in 1928.

ANGELIC CHURCH SERVICE

The next service will be held on Sunday, May 18th in the Irma United Church at 3 p.m.

The W. A. will meet on Tuesday next May 13th at the home of Mrs. Carter at 2.30 p.m. Everybody welcome.

Curly Kid Wins

The Boxing bout held here Saturday night was a success in every way. The main bout between Gus Wahl of Hay Lakes, and Curly Kid of Irma, was a warm contest, they having met five months ago at Provost when Wahl was given the decision.

The boys started to mix from the start. Wahl looked the stronger in the first round but Curly landed a couple of blows to the stomach and jaw that hurt. Wahl claimed a broken hand in the third round and wanted to quit, but after a doctor's examination his hand was found not broken and he had to go on.

Wahl seemed to stall for time running into clinches and not breaking when told by the referee. Wahl could not stand the short hard blows of Curly's in-fighting.

Between the fourth and sixth rounds Wahl took the count of nine three times the bell saving him twice. The seventh round was fast and furious and about even and the last three were Curly's.

The judges, Dr. McBride of Hardisty and Mr. Sloan of Viking and referee Bert Stinson of Wainwright gave the decision to Curly Kid.

The preliminaries were good, however, two were poorly matched, Red Larson, the coming boxer, will make somebody step to keep away from him.

A good attendance from surrounding towns made the affair a financial success. The promoters were well pleased. Curly Kid is willing to meet any one his weight anywhere for a bout. Write James Hedley or A. C. Archibald, Irma.

Mr. J. A. Russell has installed the latest shoe finishing and sole stitching in his Wainwright shop and is now prepared to turn out the finest repair job it is possible to do.

NINETEENTH GAS WELL BROUGHT IN

(From The Viking News)

Gas Well No. 19 was drilled in at 2143 feet on Wednesday afternoon with a capacity of 7,150,000 feet per day. This well is located on the Jas. Hennessy farm, eight miles north of town.

The bringing in of this nineteenth successful well for the Northwestern Utilities at this point was witnessed by Messrs C. H. Spencer, of the Northwestern Utilities, Edmonton, S. E. Slipper and M. Hunter, geologists from Calgary, M. Bishop of the Labor Bureau, Edmonton, citizens of Viking and farmers of the district.

As the drilling bit neared the top of the gas sands, strange rumblings could be heard, as if some mighty giant was chained up and straining at the leashes to be unloosed. With a rumble that could be heard for miles and a shaking of the ground in the vicinity of the derrick, sand and rocks flew high over the derrick, accompanied by a cloud of dust, as the bit struck the gas sands. The officials, the drilling crew and local management looked on with satisfaction at the finish of another successful well that will add to the supply of natural gas for Edmonton and intermediate points.

Mr. G. W. Green, superintendent of the local field for the Northwestern Utilities, has shown himself a very capable and efficient manager since taking over the duties in 1929, when the gas distributing system was inaugurated. With only one or two exceptions has there been interruption in the flow of gas to consumers in that time, and with better facilities for taking care of possible breaks in the main now, there is every indication that the service will continue satisfactory.

The drillers at Well No. 20 were down 1780 feet on Thursday with 1760 feet of pipe, and barring accidents, this well should soon be brought to production.

W. Bibby, of Wainwright, has the job of moving pipe from the Hudson Bay Marland well to Castor by truck, where the company has a drilling program.

The drilling tools at Well No. 19 are being moved over to the location of Well No. 21, and where preparatory work is now going on. When this well is finished, we understand, that drilling activities will cease in the field for this year.

GRADS RETAIN TITLE

In a two game series with the Chicago Taylor Trunks, over the week end, the Edmonton Grads upheld their reputation as world champion basketball players. The Chicago team won the first game on Saturday by the score of 34 to 24, something that no other team has done in nine years. On Monday the Grads before a packed house played a superhuman game and defeated the Chicago girls 40 to 13, thus retaining the International trophy by the score of 64 to 47. There was a wild demonstration at the close of the game such as has never been seen in the arena.

CRESCENT HILL SCHOOL

REPORT FOR APRIL
Grade IX—Myrtle Fitzpatrick, av. 86.71, Leona Frye 84.57, Edith Fitzpatrick 81.71.

Grade VII—Clara Enger 91, Eula Morgan, absent.

Grade V—Hazel Dabels 87, Sarah Fitzpatrick 85, Hubert Frye 85, Paul Dabels 82.

Grade IV—Arthur Frye 96.50, Doris Morgan 89.50.

Grade III—William Steele 84.70, Eric Steele 80.80.

Grade II—Elsie Dabels 94.80, Gordon Fitzpatrick 97.80, Ted Dabels 96.80, Bobby Morgan 95.40, Stel's Steele 91, Awilda Fitzpatrick 88.30.

A. G. Miles, Teacher

WILL TRADE—Fordson Tractor with 14in. Engine gang plow in good condition. Will trade for horses or cattle.—See J. F. Murray, Kinelsia.

CARD OF THANKS

We wish to thank the following boys for assisting in putting in our crop: Fitzpatrick, Enger, Steele and Frye.

Signed: Helen and J. C. Wood

WEEKLY REVIEW PROV. MARKETS

BEEF—The choice heavy steers \$10.50@11; choice light from \$10.75@11, with the good \$10.50@10.75; medium medium \$9.50@10, and the common \$8@9.

STOCKERS - FEEDERS - Choice feeder steers \$6.50@8. Choice stocker steers from \$6@7.50. Stock heifers from \$5.50@7. Stock cows from \$5@6.

HOGS—Edmonton hogs brought \$10.50 for the bacon this week, with selects at 50c premium per cwt., on fed and watered basis.

SHEEP—Prices about steady, with lambs from \$8@9; yearlings from \$7.50@8, and ewes selling at \$5@7.

BUTTERFAT—Special grade 30 @33c; first, 28@31c; second grade, 25@28c.

POULTRY—Crates now arriving on the market consist mainly of old hens. Retail demand is slow, with storage stocks taking care of all trade being worked.

EGGS—Lighter receipts on market this week. Demand only moderate. Few shipments being made to eastern points. This week's quotations are: Extras, 22c; firsts, 20c, and seconds, 16c.

HAY—Demand on market is relative now that spring work has commenced. Upland hay quoted at from \$12@13, shipping points, with timothy from \$18@19 per ton.

FEED OATS—Remain steady at 50c, with offerings limited.

WANT ADS

FOR SALE—Good seed oats grown on breaking—Geo. Knowles, Phone 211, Irma.

FOR SALE—Six weeks old pigs. Mrs. N. V. King, Fabyan, Alta.

WANTED—To contract for cutting brush—John Baska, Box 11, Irma.

FOR RENT—Four roomed house for rent, west of the United Church.—H. W. Love, Irma.

FOR SALE—A few hives of Italian bees. Will trade for seed oats or barley.—H. W. Love, Irma.

FOR SALE OR TRADE—For young cattle. 10 foot duckfoot cultivator with set of narrow teeth.—J. C. McKay, Phone 417, Irma, Alberta.

HATCHING EGGS—Exhibition & laying strain Dark Barred Rocks and Partridge Wyandotte eggs. \$1.00 per setting.—W. Cole, Irma.

FOR SALE—Good Willow Posts. C. T. Hill and Son, Phone 206, Irma.

FOR SALE—Artic Sweet Clover Seed for sale.—M. D. Askin, Phone 210.

FARM FOR SALE—I will sell my half section at Hawkins Station to best bidder. 304 acres west half of Section 10-45-8. Splendid mixed farming proposition. Some could be cropped this year. Apply first to Chas. Wilbraham, Irma.

FOR SALE—White Blossom Sweet Clover Seed, germination test 93 per cent. Price \$9.00 per hundred lbs. G. A. Arnold, Phone 709, Irma, Alta.

FOR SALE—600 lbs. Artic Sweet Clover Seed. J. C. McLean, Phone 106, Irma, Alberta.

FOR RENT—N. W. Quarter of Section 36-46-9-W. 100 acres broken, all to be cropped. Terms 1-3 crop clear to owner. Tenant to pay all expenses including seed.

Apply W. Masson, Agent, Irma.

FOR SALE—1000 lbs Artic Sweet Clover seed, J. L. Saville, Irma, Alta. 19 T.S.

The West Helps the East

The reduced volume of wheat production in Western Canada last year, coupled with the serious tie-up in grain shipments owing to the absence of a profitable export market, has at least had the effect of opening the eyes of Eastern Canada to certain facts which formerly they did not realize, or at all events were loath to admit did exist.

For a long period of years, even in fairly recent years, the opinion was voiced throughout the eastern portion of the Dominion that the West imposed quite a drain on the East, that the East was taxed to provide immigration, transportation, and other services for the West, and for which the East received no adequate return.

Now, apparently, this view is no longer held, for we find such an outstanding Ontario paper as "Toronto Saturday Night," which more or less reflects the financial viewpoint of the city in which it is published, featuring an article which opens with the following paragraph:

"Behind the dark curtain of wheat—the emphasis which has been placed on failure of the last crop to move—the controversy over marketing methods with the resultant propaganda—is to be found the true economic status of the Canadian west. A clear and unbiased examination of the facts—the facts alone dissociated from the passions aroused by factional contention—is vital to east and west alike. Upon such knowledge only can the confidence of the manufacturer in his commitments for the summer and fall months of the year be founded. There is no disputing the fact that the balance between prosperity and a curtailed volume of trade rests upon the West's purchasing power."

The admission, or recognition, contained in that last sentence is certainly refreshing and welcome to the people of Western Canada. Its recognition by the East must undoubtedly mean the rapid development of a better understanding between the vast sections of the Dominion which lie to the east and west respectively of the Great Lakes. And such better understanding is vital to the welfare of Canada.

The second fact which the experiences of the past twelve months have brought forcibly to the attention of the whole country is that the volume of freight traffic provided for our two great transportation systems by the grain shipments of the prairie provinces is an important, yes, a vital factor, in maintaining their net profits at a satisfactorily high figure. Not so long ago, the railway managements contended that rates for western grain carriage fixed by the Railway Commission were so low that there was no margin of profit for them in this class of business; that, in fact, there was a loss taken in the movement of western grain, which loss had to be made up out of other earnings. This, therefore, also constituted something of a grievance in the eyes of eastern shippers.

Now, however, both railways have frankly attributed the drop in their profits, in not merely the gross but the net profits, to the heavy decline in grain shipments. In other words, they have admitted the profitable nature of the western grain business from a railway transportation standpoint.

These things are deeply significant. It is well known that freight rates on grain in Western Canada are much lower than they are on railways in western grain areas of the United States, and to that extent the Western Canadian farmer has an advantage over his United States competitor in world markets. It is, however, gratifying to know that such advantage is not gained by imposing actual loss upon the transportation companies of this Dominion.

To the West, too, it is gratifying to know that it is a vital factor in promoting the prosperity of the manufacturing industries of the East. That is, as it should be. The West desires to help Canada forward. It is anxious that the settlement of its broad acres and the fertility of its soil should result in big and profitable business for the East. The West prefers Canadian-made goods above all others. And it is a source of real gratification to our people to realize that we have in our power to confer the benefits of increased business and prosperity upon our fellow Canadian citizens east of the Great Lakes.

Out of the troublous times and somewhat bitter experiences of the last season there has come the happy realization, both east and west, of our dependence on each other; of our common interest in the welfare of each other; in our joint pride and concern in the progress and prosperity of our common country.

Establish Reference Monuments

During the summer of 1929, the Geodetic Survey of Canada, Department of the Interior, established fundamental reference monuments in fourteen towns and cities of Saskatchewan and Manitoba. The sites, usually in improved city parks, were granted by the municipalities. Each pillar bears a bronze plate on which is inscribed the elevation, latitude, and longitude of the monument as established by the Geodetic Survey.

The average life of a derelict ship is 30 days, according to shipping authorities.

Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour. Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because it is harmless, tasteless, does not neutralize many times its volume in acid. Since its invention, 60 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may suit a great many digestive troubles. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 60 years in correcting excess acid. Each bottle contains full directions—any druggist.

Average Lifetime In India Very Short

Record For New Zealand Is Highest In World

The country which leads the world in the average lifetime of its people is not in either Europe or America, but in New Zealand, where at the birth of the decade, a male child at birth could look forward to 63 years of life and a female to over 65 years, according to the statistics offered by Louis I. Dublin, in his article "Can We Extend the Life Span?" in the May number of *Harper's Magazine*. In Australia the expectation of life is two or three years less, but is, nevertheless, higher than that of any country in either America or Europe. At the other end of the scale stands India, where the expectation of life reaches the amazingly low figure of 22 years for males and 23 years for females, a figure about equal to that of the people of Rome under the Empire.

In the United States the expectation of life is about 59 years, being a little less than that figure for males and a little more for females. There has been an extension of 9 years between the years 1900 and 1927. In Europe Denmark has the best standing as shown by the fact that its men may expect to live a little over 60 years and its women about 62 years.

RHEUMATIC VICTIM FOR SIXTEEN YEARS

Dr. Williams' Pink Pills Restored Her Health

Rheumatism is a disorder of the blood. Wet, cold weather may aggravate it but that is not the cause. Bad blood charged with uric acid is the reason. Re-build the blood and rheumatism will disappear. Dr. Williams' Pink Pills enrich and purify the blood and that makes good health. Mrs. John C. McPherson, St. Mary's, Ont., writes:—"For sixteen years I was a victim of rheumatism. For eleven years I was unable to walk. Massage and chiropractic treatment failed. I was utterly discouraged till I heard from my friend Dr. Williams' Pink Pills were recommended for cases like mine. I began their use and the pain subsided. The pain lessened, my appetite and color improved, and now I am able to do light housework. It is wonderful what these pills have done for me."

Dr. Williams' Pink Pills do one thing but they do it well—they enrich and purify the blood. Rich blood banishes rheumatism, sciatica, neuritis and neuritis and promotes health and strength. The pills are sold by all the dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Fingerprints Are Radioed

Photographs, Also, Exchanged Between Berlin and Buenos Aires

The police of Berlin and Buenos Aires successfully exchanged photographs and fingerprints by radio.

The prints of a criminal's ten fingers were sent in eight minutes and were received with a clearness which readily permits indexing and identification. The radio transmission of photographs, however, has not yet been so successful, but pen and ink drawings from photographs can be transmitted perfectly. Berlin radioed to Buenos Aires a sketch of its chief of police, and Buenos Aires sent a sketch of its chief of police to Berlin. Both were reproduced excellently.

Persian Balm tones and stimulates the skin. Fragrant as a flower. Cool as morning dew. Safeguards and beautifies the most delicately-textured skin. Creates complexion of exquisite charm. Adds a subtle finish to the fairest woman. Invaluable for softening the hands and making them fleetly white. Cool and refreshing. Delicately fragrant. Delightful to use. Chosen unhesitatingly by all women who care for feminine distinction.

Fair Booklet Issued

Under the title "Hints for Exhibitors," the provincial department of agriculture has issued a booklet that deals with exhibits and the preparation of exhibits for the World's Grain Exhibition and Conference that will be held in Regina July 25 to August 6, 1932. Copies may be secured by applying to the department. Hon. W. C. Buckle, Minister of Agriculture, is chairman of the executive Saskatchewan committee.

Heal the Sprain with Minard's.

Law With Teeth

Two thousand Austrians though several thousand miles removed from America are kept dry by a prohibition law with teeth in it. They are persons who have committed small crimes while under the influence of alcohol and who have received sentences which become effective when and if they take another drink.

W. N. U. 1538

Children's Croupy Colds Quickly Relieved

Take a saucer or pitcher of water, place it on a spirit stove or lamp. Add half a teaspoonful of Catarrhose to a pint of water which is brought to a boil. Let the steam from the kettle fill the room so that medicated air is breathed in by the child. The distressing cough is relieved. The inflammation is reduced. Good results are quickly noticeable from using Catarrhose in this treatment is ideal. Every good druggist sells Catarrhose in 50c. bottles.

Production and the Market

Dairy Products and Livestock Could Be Increased To Canada's Advantage

While Canada has been increasing her wheat acreage at the rate of a million acres a year every other major line of agricultural production has been standing still or sliding down hill. While the wheat crop goes begging the British market is calling in vain for more Canadian Wheatbreads, more Canadian cheese, more Canadian condensed milk and more Canadian poultry products. The simple fact is that agriculture in this country has grown stale.

This is the argument of R. D. Colquhoun, in an article in *The Country Guide*, Winnipeg, and there is plenty of evidence to support his contention.

What has happened is that Canada's agricultural production has gotten completely out of balance. We have a national deficit of two such important products as butter and lamb. Our Wiltshire exports are at the vanishing point. It would be no surprise to some who see this situation as it is to find Danish bacon beside New Zealand lamb on the meat counters of our cities if a change is not made. Of cheese, condensed milk and other products we are selling less abroad every year. This kind of thing can not go on forever, says Mr. Colquhoun. Production has to be shaped to fit the market. We have got to balance up. Otherwise the figures at the bottom of the column will be written in red ink.

These considerations, however, must not blind the observer to the fact that wheat growing is the chief business of large areas in the West, because these areas are adapted to cereal production and would fall as mixed farming areas.

Plan Daring Venture

Group of Japanese Business Men Sponsoring Air Line Across Pacific

A project of inaugurating a regular passenger and air line between Japan and the United States and Canada to shorten the distance between the continents to three days is reported to have been organized by a group of Japanese business men and financed at a capitalization of \$75,000,000. Four huge airships, resembling the Graf Zeppelin, which encircled the globe last year, are expected to be employed for the regular air trips.

The Japanese government has been officially asked for the necessary permits and those behind the enterprise say they propose to go right ahead with their preparations.

Seki Hoshino, noted Tokyo business man and one of the promoters, says the plan was projected last year shortly after the visit of the German dirigible. The single fare for a passenger, he said, would be \$1,500.

"It may take us a year or two to complete organization," said Mr. Hoshino. "International agreements will have to be negotiated. But we are absolutely serious in this undertaking. It is a daring venture, but we believe that it is feasible and we are prepared to go right ahead with it."

Miller's Worm Powders can do no injury to the most delicate child. Any child, or infant in the state of adolescence, who is infested with worms can take this preparation without a grain of the stomach, and will find in it a sure relief and a full protection from the destructive pests, which are responsible for much sickness and great suffering to legions of little ones.

An Odd Ornament

A human jaw bone carved with hieroglyphs and made into a pendant is an odd piece of jewelry worn by one of the prehistoric Mayas and found recently by a British archaeological expedition to British Honduras.

One advantage the Senators will enjoy now is that for whatever happens they will have a woman to blame it on.

Used-car auction sales are being held in Africa. Campers Carry Minard's.

Lives Have Been Shortened

Men Who Saw Actual War Service Are Dying Comparatively Young

Hon. Dr. Manion, speaking before the parliamentary committee on pensions and returned soldiers problems the other day, made a statement which is highly significant. He said that of those men who served in an actual theatre of war between 1914 and 1918, very few will live to reach the age of sixty-five. Being both a physician and a war veteran, Dr. Manion has some intimate knowledge of the conditions under which men lived during these war years, and of the effect which these conditions had on mind and body. And his considered opinion is that few of them will come within five years of reaching the allotted span of three score and ten years of life.

This statement is further amplified by the figures quoted by Major Wright of the pensions department. His figures showed that 348,904 Canadians reached an actual theatre of war. Of these, some 60,000 were killed in active service. Of those who did return to Canada, however, 29,376 are known to have died since the war. There may be many more who have died and of whose deaths there has been no record, but the records available show almost 30,000 deaths in the first ten years after the close of hostilities.

This is a condition worth pondering over. The war veterans of Canada are dying off at a great rate and it is only logical to expect that the rate of mortality will increase rather than decrease during the next decade and the one to follow. Indeed, Major Wright's figures rather support the assertion of Dr. Manion that few of the veterans who served in an actual theatre of war will reach the age of sixty-five.

This is not a very cheerful outlook—for the veterans. Yet it is recognized that war conditions were such as to prematurely age many men, and to rob them of the strength and vitality that would carry them on to the natural span of life. Their lives have been shortened by their service to their country. Their earning powers have been curtailed because they are growing old in body and mind although not in years. There is a difficult situation, and one in which they merit all the sympathetic consideration that can be given them by a grateful people.—Oshawa Times.

Douglas' Egyptian Liniment is unrivalled for speedy relief in muscular rheumatism, lame back, inflammation, burns and festers.

Prizes For Registered Grain

To encourage the growing of registered grain, the Melfort, Sask., Kiwanis Club is to supply 25 teen age boys with two bushels of registered seed each, or enough to sow an acre of land. A cup and other prizes will be presented in the fall for the best grain.

The United States will show the best features of its "billion dollar poultry industry" in an exhibit to be sent to the World Poultry Congress in London this summer.

WRIGLEY'S

WRIGLEY'S is good company on any trip.

It's delicious flavor adds zest and enjoyment. The sugar supplies pep and energy when the day seems long.

In short it's good and good for you.

No Moths In Arctic

Woolen Mittens Seventy-Eight Years Old Are Like New

Clothes moths are unknown in the Arctic. Let a pair of white woolen mitts, hanging in the office of O. S. Finnie, at Ottawa, testify. Mr. Finnie is director of the North West Territories and Yukon Department of the Interior.

They were knitted—these mittens—in England, 80 or 90 years ago. A bundle of them was purchased by the outfitters of Captain Sir Leopold McClintock, commander of one of the ships that went north, in search of Sir John Franklin.

They were fastened up in a cask and cached on Dealy Island, in 1852, exactly 78 years ago.

Last spring, Inspector Joy came upon the mittens, and he used them. They are back in civilization, and look like new.

Praises This Asthma Remedy. A grateful user of Dr. J. D. Kellogg's Asthma Remedy finds it the only remedy that will give relief, though for thirteen years he had sought other help. Years of needless suffering may be prevented by using this wonderful remedy at the first warning of trouble. Its use is simple, its cost is slight, and it can be purchased almost anywhere.

A Giant Tree

A giant spruce, more than 275 years old and measuring 125 feet in height, has just been cut down in Gasbarr parish in Vermont. At the root the ancient tree had a diameter of 44 inches. It was sawed into five sections, containing in all more than 118,43 cubic feet of solid wood and plenty of splints for making pulp.

Sick Animals

Western Representatives:

HUNTER-MARTIN & CO., REGINA, SASK.

Expect National Livestock Policy Recently Formulated Will Greatly Aid Industry

Involving the appointment of a committee of three, and federal appropriation of \$1,000,000, a national livestock policy has been formulated by the Canadian livestock co-operative organizations, following the recent all-Canada agricultural conference in Ottawa, it was announced by W. D. Mackay, president of the Canadian Livestock Co-operative.

It is proposed that the committee of three, comprising a representative of the livestock co-operatives, a representative of the federal department of agriculture and a third to be chosen by these two, have the direction of the national policy, which will involve the construction of two demonstration abattoirs, one in eastern Canada and one in the west.

Location of the western plant has not been decided yet, but there is some possibility it may be built in Regina.

The purpose of the policy is to enable producers to secure information in regard to processing, distribution and marketing, as well as production, so that not only will costs of processing be determined, but also grades may be established on a proper basis for both live animals and meat products. "It is the intention," said Mr. Mackay, "to cover all phases of the industry from producer to consumer. There are serious defects in production as well as in processing, distribution and marketing."

The policy outlined is the aftermath of the Ottawa conference in March between representatives of the federal and provincial departments of agriculture and of the livestock co-operatives, when a resolution was adopted requesting the federal department, in association with the co-operatives, "to investigate the reasons for the fluctuation in prices of livestock and livestock products, and endeavor to construct a policy which will stabilize prices to profitable levels, particularly with reference to selling of such products on the export markets."

"The proposal," said Mr. Mackay, "does not contemplate any interference with the established packing industry, but the proposed two demonstration abattoirs will be in the nature of research laboratories, designed to establish the necessary spread in prices between the live animal and the finished products, to determine the possibilities of extending the range of variety of products and to ascertain the extent to which diseased animals should be a charge on livestock production."

"These demonstration abattoirs would be an invaluable aid to the industry in solving problems which will doubtless arise as the industry develops. Rightly or wrongly, the majority of producers today believe they are paying unnecessary charges for a huge surplus of equipment, for excessive costs on equipment not being used to capacity and for out-of-date equipment."

"These are some of the reasons why the livestock industry is languishing and why it is impossible to persuade the producer to increase production, to the point where it would be possible to meet the requirements of the British market for a continuous supply of uniform quality products."

"While livestock production has made progress in the past 15 years, it has made less progress than any other industry in the Dominion. In fact, Canada's exports of livestock and livestock products are rapidly approaching the vanishing point whereas this should be one of our big sources of national revenue."

Canadian cattle exports have dropped from 204,000 head in 1925, to 162,000 last year, and live hogs in the same period from 89,000 to 3,900 head. Exports of hog products have dwindled from 156,000,000 pounds in 1925, to 39,000,000 pounds in 1929.

"You haven't said why you want a divorce?"
"Because I have a husband."
Querin Meschino, Milan.

W. N. 17, 1836

For the same period total marketings of Canadian cattle have declined 165,000 head, and hogs, 160,000.

"The seriousness of the trend can readily be grasped when the importance of the livestock industry to agriculture and the importance of agriculture to the national welfare is considered. Because of the relationship between agriculture and industry the problem is of as great interest to the city man as the farm resident, and it affects the welfare of eastern Canada just as it does that of the west."

"Moneys have been expended for research and laboratory work in connection with other commodities, and it is just as imperative that similar assistance be given to the livestock industry, at present a declining national asset. If steps are not taken to put it on a parity with other industries, all industry will suffer."

"Under present conditions the producer is afraid to increase his production. It is essential he receive some assurance that his efforts will not be met by greater losses."

CHILDISH AND COZY

All Tingey models are created and sketched in Paris and the patterns are made in New York.

From long experiences, mothers have learned there are few cuts more suitable and becoming to the wee ones than those of the type pictured.

With today's pattern one could make numberless little dresses for little Elizabeth, Ann and Mary Jane, and, with variation of color and material, make each model look interesting and different.

The original dress in a daintily flowered thin wools of the chaise type, was of pale yellow with pink flowers and bindings. Plain blue gingham with white binds would be adorable; so would white dimities and spotted awes with pale colored edges. Other schemes are checked and spotted or flowered cottons with contrasting edges, and wool or cotton voiles. Wash silks are also lovely for such little frocks.

This pattern may be obtained in sizes 2 to 6. It is ready for immediate delivery. It is hand cut. Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

Launches "Helene"

Miss Nesta Gillies, daughter of Captain James Gillies, C.B.E., general manager of the Canadian Pacific Steamships, Ltd., who launched the "Princess Helene" from the yards of Messrs. Wm. Denny & Brothers, Ltd., Dumbarton, on April 29th.

The "Princess Helene" will have a tonnage of about 4,000 and her port of registry will be Saint John, N.B. She is intended for the Canadian Pacific Bay of Fundy service.

Who Controls Canada's Wealth

Estimates Show Largest Per Cent. Of Securities Held By Canadians

All this talk about Wall Street owning Canada does not stand up before facts.

The wealth of the Dominion is between \$28,000,000,000 and \$30,000,000,000 according to the latest figures of the Dominion Bureau of Statistics. Of this sum outside capital makes up \$5,904,000,000, or not more than one-fifth of the whole. And this one-fifth is by no means all in the hands of American neighbors. More than \$2,000,000,000 of the amount belongs to the British Isles, the United States share being \$3,470,000,000.

Further, the bureau estimates that from 55 to 65 per cent. of the securities of all enterprises on Canadian soil are in Canadian hands, and that, in addition, Canadians have invested abroad the sum of \$1,745,815,000, of which nearly \$1,000,000,000 went to the United States.

In other words, Canada's 10,000,000 people have invested outside of their own country something like 30 per cent. of the amount that represents outside investments in Canada.

Idea Might Be Useful

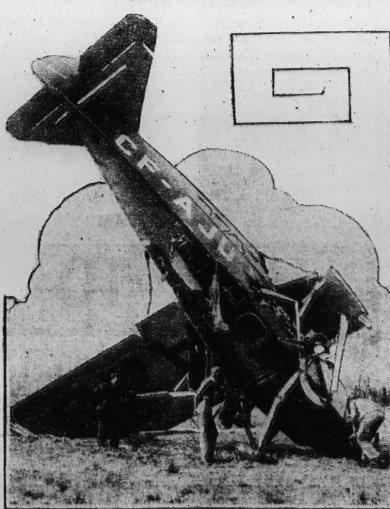

Ontario Town Has Use For Old Motor Cars

Never again will worn-out motor cars be discarded to the scrap heap in this locality. A new use has been found for them.

More than 150 motor-reliques were taken to Gressy some time ago and placed along the shore of Lake Ontario and filled with stone. The water in the lake is high at present and formerly the seas continually swept over the road, practically ruining it for traffic.

The automobile breakwater, however, has proved successful and the road is now in first-class condition.

FORCED DOWN BY FOG

A privately chartered aeroplane bound from Montreal to New York, with Rev. Avila Papineau, rector of St. Catherine Church, and Charles McQuinn and Leonard Lehan, Montreal business men, as passengers, became lost in the fog, and had to make a forced landing on the estate of Dr. C. H. Dunn, at Katonah, N.Y. It was reported that the machine lost a wheel while making the landing. George Pigeon, a former war aviator, was piloting the machine. The photograph here shows the aeroplane after the landing.

Prince Will Launch Liner

Heir To Throne Is Sponsor For New C.N.P. Boat

Believed to be the first time that a giant passenger liner has been sponsored by the heir to the throne the recent announcement that the Canadian Pacific new ship will be launched by H.R.H. the Prince of Wales has been greeted with great acclaim by the press in all sections of the British Isles.

The Glasgow Herald commented editorially to the effect that it is "a matter of great satisfaction to the people of Scotland that the Prince is coming to perform this important ceremony. It is peculiarly fitting that the Empress of Britain should be christened by H.R.H. for an indissoluble link between the Clyde and the Dominion has been forged to no small extent through the efforts and example of the Prince."

A tribute is paid in the same paper to the series of fine Canadian Pacific ships that have recently been built on the Clyde.

In addition to the launching of a passenger vessel by H.R.H. being unusual, it is remarked upon that quite a departure from precedent has been made in the fact that a lady usually performs the act of sponsorship.

The last occasion upon which royalty officiated at a passenger liner's launching was when H.R.H. the Duchess of York sponsored the 20,000-ton Canadian Pacific liner that bears her name.

Predicts Speedier Motor Cars

Will Come With Better Highways.

Automotive racing cars which will travel so fast that the human eye will be unable to record their passage are mechanical eventualities—speedsters on land which will overtake the swiftest aircraft that have been designed for cruising among the clouds.

That, at least, is the prediction of Sir Henry Segrave, owner and driver of the world's fleetest automobile, the spectacular "Golden Arrow" which was powered to attain a maximum speed of four miles a minute and which was timed at Daytona Beach at the unparalleled velocity of 231 miles an hour.

Sir Henry Segrave maintains, says "The Scientific American," that with the eventual building of super highways in the United States, and with future perfection of the ordinary motor car, American motorists will travel at speeds from 100 to 150 miles an hour during their cross country tours with as great safety as they now journey at forty-five miles an hour. He says that at present there are ten makes of cars built in England which can do 100 miles an hour or better on present tracks and the finest roadways.

May Be Lucky

Deep in the wilds of New Jersey lives a man of seventy-eight who has never seen an automobile. Well! There are a lot of angels who might have been boasting of seventy-eight years on this earth today, were it not for the fact that they failed to see an automobile. . . . a certain speeding one, at least.

Development Of Extensive Fish Industry In Hudson And James Bays Planned

Farming By Machinery

Mechanical Aids Have Followed Each Other In Quick Succession

Early in the day, on farms large and small, the inventor and manufacturer largely repeated their triumphs in factories and mills. Their reaper had started a revolution on the land before the Civil War. But that crude device, which merely cut the grain and left it unbound in piles, was superseded by the automatic self-binder, and later, in the Far West, by a machine that cut, threshed and bagged wheat ready for the market all in a single operation.

In 1870 the chilled steel plow, light and durable, was available at a low cost to farmers long accustomed to the heavy, back-breaking implement of ancient memories. Swift in succession came mechanical corn planters and wheat drills that drove from the fields the men who dropped or sowed grain by hand. Corn, huskers, shellers, riding plows, hay loaders, potato diggers, tractors, gas engines and other prime inventions made a change in the cultivation of the soil scarcely less profound than that wrought by the spinning jenny, the loom, and the blast furnace in the methods of manufacture.

The man or woman with a hoe, bowed by the weight of centuries, now mounted a tractor and drove a furrow with the knock of a motorist. If, unlike the industrial operative, the farmer worked alone in the open country, still the automobile, rural postal service, telephone, and radio now gave him quick communication with the market, bank and grange.

Dairying As Side Line

Good Profit Can Be Made From Butcher Sales

H. R. McMillan in a speech before the Vancouver Board of Trade, tells the Canadian people 20 per cent. of the butter supply she uses.

The Ontario farmer (which, of course, includes the farmer's wife), didn't make Ontario the province it is today by buying butter. And that is one of the first lessons the Western farmer has to learn—that if he is to take care of the lean years and the poor markets—he must go into farming in all its branches—he must keep cows and make his own butter. He must raise his own poultry.

It is to be proud boast of the Ontario farmer's wife that she "kept her table" with her butter and eggs. And most of them used to clothe the family, too, in the same way. Most farmers can not afford to pay cash for "eats" that should be grown on the farm. Specialized farming communities prosper during favorable cycles, but the lean years which invariably come, usually leave a trail of disaster for the one-crop enthusiast.—Vancouver Province.

The Great Northern Plains

Area In Dominion Furnishes Pasture For Musk Ox Caribou

There is an area in Northern Canada lying between the timber-line and the tide-water of the Arctic Ocean and Hudson Bay, which includes about 500,000 square miles or nearly one-seventh of the area of the whole Dominion. Although not producing trees this area is not barren but provides pasture, in places luxuriant for the migratory musk ox and caribou. Several exploratory expeditions have been made during recent years by surveyors of the Topographical Survey, Department of the Interior.

Invents Airplane Trolley

Combining the features of the airplane and the over-head trolley, Joseph Archer, a French engineer, has perfected a new electric trolley capable of a speed of 150 miles an hour. The invention will be demonstrated in Paris shortly. The car is similar to that of the airplane. It travels on a monorail. Flat-like wings projecting from the sides support much of the car's weight when in motion. It can be brought to stop within 300 feet by reversing the propeller.

Source Of Cheap Leather

Seeking to turn every part of the whale into profitable use, Norwegian whalers, with the aid of a Swedish chemical engineer, have perfected a process of converting the huge animal's intestinal membrane into a tough, almost indestructible and cheap leather for gloves.

Prospects of developing an extensive fishing industry in Hudson Bay and James Bay are scented by the Dominion Government. Some time this year the Department of Fisheries plans to send an expedition northward to find out just what fish, if any, there are in the great northern inland sea.

The completion of the Hudson Bay Railway to Churchill and the announcement of plans to push the Temiskaming and Northern Ontario Railway northward to James Bay make an investigation of the fish resources of the area important. Hitherto there has been no means of getting fish out and consequently no attempt at commercial fishing. Rail communications, however, will bring the Bay close to the great inland fish markets of the continent and provide for prompt delivery of fish to southern Ontario, the prairie provinces and the central states.

The expedition will be composed of practical fishermen accompanied by a scientist. They will sail northward in a regular fishing ship, possibly a trawler or perhaps a schooner. Owing to the tremendous area of water to be investigated it is felt the expedition will require at least two years to complete its work.

The fish explorations as they may be called, will sail about the bay dropping anchor here and there and catching whatever fish are available. They will observe and note the varieties of fish and the quantities in which they are found, also the condition under which fishing operations would have to be carried on and the type of boats required for successful commercial operations.

Although men have sailed over and lived around the bay for centuries there is no accurate knowledge of the fish to be found there. It is known that fish are plentiful in rivers emptying into the bay but no one knows whether they exist in the bay itself. The only fishing ever done in the area has been on the small scale demanded by immediate local consumption. Consequently the only catches have been made in the rivers and in the bay about the mouths of rivers and in the neighborhood of settlements.

The department feels it is best to make its investigation early before attempts are made at commercial fishing. In this way they may be able to avoid loss to private individuals. But they will also determine in advance the regulations which should apply to any commercial fishing which might develop there and will avoid the difficulty of imposing regulations on fishermen who have already established their business.

To Take Canadian Census

Will Give Employment To 1500 Persons Next Year

Preparations are under way for the decennial census of Canada to be taken in 1931, giving employment to 15,000 persons. The whole country will be covered by information seekers, getting statistics as to population, births, deaths, migrations, sex, nationality, age and operations. Production in all its forms, including mines, transportation, marketing, and finance will be looked into. Altogether there are 38 main headings in census classification and 56 sub-section headings.

Ice From Desert Sands

Torrid desert sands may furnish the ice of the future, and it will be twice as cold as any ice made from water. The commercial possibilities of "dry ice" from carbon-dioxide wells lying beneath the arid stretches of western Colorado and eastern Utah are being stressed by the United States Department of the Interior.

"You are short-sighted and don't wear glasses?"
"I do, but I hate them so that I only wear them when I am asleep."
—Pages Gales, Yverdon.

MOTHER'S DAY, MAY 11th

Though the celebration of Mother's Day is not confined to young people, it is an occasion which they should honor in a special way. There is no love like mother-love, and there ought to be as strong an affection on the part of boys and girls for their mother as mother has for them. Happily, it is rare to find any young person who has not the deepest regard for his, or her, mother. It is impossible for anybody, young or old, to be wholly unkind of the loving care lavished upon them in their earliest years. But young people are nearest to that period and therefore should be less apt to forget. Think of all the devotion, day in and day out, in sickness and health, shown by your mother, and you will be anxious to give, on this day set apart in her honor, some mark of gratitude and appreciation. And what shall that token be? There are some who think the day is given too much of a commercial aspect. They say it is just another dodge to get people to buy flowers and other little gifts, not so much for mother's benefit as the storekeeper's. Now, that is a small-minded view to take. The day was founded absolutely for the sake of the mothers, and no one else, and it is not a matter of what is given at all, but what is felt and what is expressed. There could be no finer or more acceptable gift for mother than the resolve on the part of her boy or girl never to sadden her life by any unworthy act. Mother's chief concern is for the welfare of her children, and her greatest happiness consists in seeing them grow up respected.

If we could hold steadily before our mind right through life the remembrance of mother's devotion, her hopes and her expectation of us, it would serve as a powerful incentive and moral safeguard. We all of us fall short of mother's estimation, but let us constantly cherish the ideals she forms for us. Let us so live that we shall be worthy sons and daughters. Not merely on Mother's day, but throughout the year, and from one year to another, let us see to it that we do not fail in our love and duty to mother.

A WORLD COMPETITION

Press dispatches give the information that Guatemala will participate in the World's Grain Exhibition and Congress to be held in Regina in 1932. This notice gives some indication of the worldwide interest taken by the staging of this gigantic exhibition and serves as a warning to Western grain growers that no stone must be left unturned if they desire to retain the major honors in this country.

The World's Grain Exhibition puts all other efforts of the kind completely in the background. We are accustomed to think of the Toronto Royal Agricultural Winter Fair and the International Grain Exposition as gigantic enterprises, but never before have as many countries indicated their intention of taking active part as in the case of the 1932 meet. A national win, in fact even a minor award, at this exhibition may well be looked upon as a high honor, and while future shows of this kind may be held, it is unlikely that they will be planned for some years at least, and the advantages which accrue to grain growers as a result of successful contest in the Regina event are hardly likely to be discounted during the active lives of present growers. It is to be devoutly hoped that when the award lists are published Western Canada will be featured in the headlines. This can only be accomplished by continuous activity by a host of growers. There is no time for delay.

PROVINCIAL ELECTION WILL
BE HELD THURS., JUNE 19th

Alberta will have a provincial election on Thursday, June 19th nomination day being set for June 9. The present standing of the parties in the provincial house is:

United Farmers	43
Liberals	7
Labor	6
Conservatives	4
Total Seats	60

In the next legislature, there will be 63 members due to the following changes made on account of redistribution. Edmonton, six members instead of five; Calgary, six members instead of five; Drumheller, one member; Clover Bar, one member; Grand Prairie, one member. The last three are new ridings. A merger of four other ridings into two has taken place in other parts of the province.

VIKING

The annual meeting of the Viking Horse Shoe Club was held in the Town Hall on Tuesday evening at eight o'clock. There was a good attendance when president Angus Ross called the meeting to order. The report of the secretary A. Kastor showed that the club had approximately ten dollars in the treasury. The election of officers was proceeded with and resulted as follows:

Hon. President, Mayor Thunell.
President, Angus Ross.
Vice-President, Jas. Hennessy.
Secretary-Treas., J. H. Kastor.
Grounds Committee, J. L. Slavik and Thos. Hoskins.

Entertainment Committee, Percy Main and E. B. Hummel.
The annual fee was set at \$1.00, with a fee of 25c charged to non-members for participation in tournaments. The first tournament will be held at the fair grounds on Thursday evening of this week commencing at 6.45. It is the intention to hold weekly tournaments throughout the summer months, with suitable prizes for the winners. J. L. Slavik was appointed with full authority to run the tournaments.

The local club would like to arrange games with neighboring towns, and are endeavoring to have some party donate a cup for competition between the towns. Everything points to a good season for the "barnyard golfers."

Mr. Carl Harper, of Vancouver, wishes to refute the rumor that seems persistent that he is not located here permanently. He has decided to make his home here, and has taken quarters with Mr. Chan Collins in the Hilliker Block, where he is prepared to give piano and vocal lessons. Previous to coming to this community, Mr. Harper was engaged as pianist in one of the larger theatres, but with the advent of the talkies, many hundreds of musicians have been thrown out of employment. He has already demonstrated his ability as a musician and teacher since coming here, and it is to be hoped he will secure enough pupils to warrant his faith in choosing this community as his headquarters.

Mr. Harper has had a distinguished career as a musician, having travelled extensively as a solo pianist on U. S. chautauqua circuits. While a member of the orchestra at the Georgia Hotel, Vancouver, during one of the visits of the Prince of Wales, the orchestra was praised by the Prince. Mr. Harper has also had engagements at the Vancouver Hotel, the Green Hotel at Pasadena, California, and other concert orchestras.

He prepares pupils for all examinations. One of his pupils at Maple Creek received a three year scholarship at the Bush Temple Conservatory of Music at Chicago. Mr. Harper has studied under some of the eminent teachers of North America and Europe, and we consider that this community is fortunate in having him as a citizen and teacher of music.

In a slashing ten round bout, on Saturday evening at Irma, Carly Kid Archibald, of Irma, defeated Gus Wahl, of Hay Lakes, on points. The decision of the judges and the referee was unanimous. Both boxers were in the pink of condition and kept up the milling until the final gong in the tenth. In the fifth Wahl claimed a

broken hand and the contest was stopped until a doctor pronounced that no bones were broken. They went to it again. In the seventh Wahl took the count of eight, and again in the ninth but recovered to go the ten rounds. Four three round preliminaries were staged by local boys that added to the gaiety of the occasion.

Among those who saw the Grads defeat the Chicago Taylor-Trunks in the sensational basketball game at Edmonton Monday evening, were Mr. and Mrs. Percy Main, Mr. and Mrs. J. L. Slavik, Mr. and Mrs. F. Miller, Mr. and Mrs. C. A. Uppre, Mr. and Mrs. Thos. Hoskins, Miss Kay McGregor, T. A. Richardson, and O. Fitzmaurice and A. V. White.

"Cat O' Nine Tails" the play that the Wainwright Dramatic Club will present at Viking on Wednesday, May 14th, at 8.30 p.m., was so well received at Wainwright that it was staged for four successive nights to a full house. Don't miss it when it is presented here. Popular prices.

Among the improvements on Main street we note a new awning for the Clinton Grocery and the painting of the Royal Cafe front. Joe Phillips residence is also among the newly painted buildings.

Ivar Studds, of Vegreville, victim of the car accident ten miles east of town, a week ago Sunday, is reported to be on the road to recovery at the local hospital.

Mr. and Mrs. W. McAtthey were in Edmonton last week. They were accompanied home by their son Lane, who has finished his first year at the University.

Arbor Day was observed by the local school as a holiday. Citizens in general were seen out planting trees and shrubs, raking up yards and preparing gardens.

Laurie Scott, star hockey player for the Duluth, Minnesota, team of the International League, was in town last week renewing acquaintances and visiting friends.

Mrs. A. F. Newmeyer, and Mrs. Chrysal of Edmonton, were visitors at the H. P. Stock home the first of the week.

C. G. Purvis returned from New Westminster, B.C. on Monday where he had been to attend the funeral of his mother.

A party of seventeen members of Connaught Lodge A.F. & A.M., attended a meeting at Vegreville on Monday evening.

Farmer Jones made his way into the village post office that was also the general store.

"Anything for me?" he inquired of the postmaster. The other raked over a few parcels and letters but found nothing.

"Don't see nothing," he said. "Did you expect something?"

"Yes," answered the farmer. "I was expecting a card from Aunt Jenny tellin' me when she's comin'."

"Hannah," called the postmaster to his wife, "seen a card from Mr. Jones Aunt Jenny?"

"Yes," came down the prompt reply, "she's comin' down Tuesday."

Now is the time of the year to advertise for those stray horses and cattle. A small ad in this paper will help you.

JARROW NEWS

Mrs. C. Jenkins has returned after spending a week with her parents in Edmonton.

Mrs. J. McCracken spent the week end in Wainwright the guest of Mr. and Mrs. Wm. Daugherty. Mr. and Mrs. H. H. McDougall visited in Edmonton on Saturday and Sunday.

The children of the Sunday School are preparing a special service for Mother's Day, May 11th. Everyone is invited to attend. The Mother's of the district especially, at eleven o'clock.

Miss Margaret Dinwoodie spent the week end in Wainwright.

Monday night the Jarrow Board of Trade met at the Community Hall and appointed the following convenors of committees in connection with the annual sports which will be held Tuesday, June 3rd. Baseball, Mr. Orr; foot races, N. Lutton; horse races and hockey contest, R. Whitford; Kyie Hye, W. M. Morgan; Horse shoe contest, W. Matthews; Tug O' War, Ken Marberry; Slow car race, H. McDougall; Refreshment committee, Boyd Jenkins and J. Miller; Dance committee, H. Symons. One hundred and fifty dollars will be given in prizes.

A resolution was passed that N. Lutton and H. Symons look after the matter of having an analysis made of the water from the town well.

Mr. and Mrs. Aston of Edberg visited with Mr. and Mrs. J. Miller for a few days this week. Mrs. Guy Miller and family accompanied them to Edberg where they will visit for a few weeks before joining Mr. Miller at Star.

A dance is planned for Saturday night, May 10th under the auspices of the Community Club. Irma orchestra will provide the music. Admission only 50 cents. Everybody come.

The Ladies Aid met at the home of Mrs. J. A. Waite on Wednesday afternoon. A good number was present and plans made for the booth on Sports day. Delicious refreshments were served by Mrs. Waite at the close of the business.

Rev. Mr. McNeil motored to Kelcey on Thursday and returned Saturday accompanied by Mrs. McNeil and infant daughter. We are sorry that their baby is suffering from eczema and hope for its speedy recovery.

Mrs. Ed. Peet and infant son, Glenn Edward, returned from Viking hospital on Saturday.

pital on Saturday.

Word has been received that Henry Treichel who is confined to the isolation hospital in Edmonton with spinal meningitis is progressing favorably and will soon be able to return home.

Mr. W. H. Barton has been officially appointed as postmaster for Jarrow in place of P. R. Bamsey.

ROSEBERRY ITEMS

On Friday evening last the Roseberry Glee Club wound up their activities for the season with a court whist drive and dance. In spite of the very busy season there were eleven tables.

Mr. Ross Saunders and Miss Lilly Saunders were the lucky winners of the first prizes. The ladies' second prize was won by Miss A. Carmichael, the gentlemen's second by Mr. A. Lewis. The third ladies prize was won by Mrs. A. A. Taylor, while Mr. Chas. Younker won the gentlemen's third prize.

At the close of the card party Mrs. A. A. Taylor was the recipient of a very handsome tea tray, presented by the Glee Club. The vice-president Mr. Harold Munro expressed, on behalf of all the members, their appreciation of Mrs. Taylor's valuable assistance in presenting the play Deacon Dubbs. In a few well chosen words Mrs. Taylor thanked the Glee Club and told how she enjoyed helping with the play.

After lunch all enjoyed themselves dancing until the early hours, music being provided by the Saunders orchestra.

TENDERS FOR BASEMENT

SEALED TENDERS will be received by the Board of Trustees of Coal Springs School District No. 2360 at the office of the Secretary-Treasurer up to noon May 20th, 1930, for the construction of a basement after Plan Number 68-C-799. Plans and specifications may be obtained from Secretary-Treasurer on payment of a deposit of \$5.00. Plans must be returned within 24 hours, and deposit will then be refunded. A marked cheque for five per cent of the amount of tender should be enclosed with each tender as a guarantee that same is bona fide. The lowest or any tender will not necessarily be accepted.

E. R. ERICKSON, Sec.-Treas. P. O. Irma, Nearest station Jarrow, 6 miles distant.

NEWS ITEMS FROM KINSELLA

Mrs. B. Wachter spent the week end in Edmonton.

Mr. P. J. Wanjane returned from Edmonton on Thursday where he had been for the past few days.

The Tennis Club are holding a tea and musical afternoon in Lee's Hall on Saturday, May 10th.

Miss Marion Watson returned to Camrose on Sunday where she is attending Normal.

A few from here attended the prize fight at Irma on Saturday evening.

Mr. Jack Corbett returned home from Edmonton on Monday where he has been attending the University.

Miss Kathleen Ferries who is teaching near Loughheed spent the week end at her home here.

Quite a few from here attended the play at Viking on Wednesday evening which was put on by the Holden people and it was well worth seeing.

A dance will be held in the Lake Vernon school house on Friday evening May 9th.

No Place For a Lady

At a small country station a freight train pulled in and side-tracked for a passenger train. The freight started to do its switching as a placid, well dressed woman who had alighted from the passenger train was walking near it. Just then one of the freight brakemen called to another: "Jump on her when she comes by, Bill. Run her down by the elevator, cut her in two and bring the head end up by the depot!"

The lady picked up her skirts and ran for the station shrieking at every step.

PREPARATIONS BEING RUSHED FOR ELECTION

Upon Telegraphic Communication Returning Officers Can Start Machinery

Ottawa, May 5th.—Tons of election forms are in transit today to the 245 returning officers spread across the Dominion. But this does not carry with it any special significance for a 1930 general election. It does mark, however, the whipping of election machinery into working shape in accordance with an amendment to the Dominion election act passed at the last session of parliament.

The old voters' list system has been "scrapped." For some years it has been the practice to use provincial lists as the basis for Dominion election lists. The next general election, however, will witness a new system under which enumerators and rural registrars will be required to make a house to house canvas on the issue of election writs. In the preparation of more up-to-date and authentic lists. This innovation is another feature of the amended act.

Everything in Readiness

The whole scheme is that immediately on receipt of a telegraphic message returning officers will be in readiness to put the election machinery into immediate operation. For this reason it is essential that these officers have all election forms on hand to guard against any delay in mailing to constituencies bordering on either sea coasts and as far north as the Yukon territory.

Permanent returning officers in every constituency have been appointed since last session. Of this number, perhaps a score, it is estimated, are former officials in that capacity whose status under the old Dominion Elections Act was more or less temporary. From 18,000 to 19,000 rural registrars have been chosen, while approximately 6,000 enumerators have been selected to complete the machinery.

The new legislation provides for the holding of elections thirty days after the issue of writs. The purpose of this provision is apparent by reason of an official calculation that it will take fifty eight days under the more modern act to put all election machinery into full force and effect.

WORLD HAPPENINGS BRIEFLY TOLD

There are 27 aeroplanes in use by the Canadian Government at present. Canada has spent \$83,886 in sending delegations to the International Labor convention at Geneva, since 1925.

Earl Bridges, champion dog team driver of the world, is to become a resident of Ontario and Quebec. He is taking with him the team which sped to the world's title at The Pas dog derby this winter.

Navigation on the Great Lakes officially opened April 28, with the arrival of the "Huron" and "Noric" at Port Arthur, with 3,000 tons of package freight for Western Canada points.

For the eleven months ending February 28, 1930, a total of 406,889 radio licenses had been issued in Canada. Ontario with 201,941 receiving sets leads Canada. Saskatchewan has 31,266; Alberta, 20,574 and British Columbia 34,428.

The vaults of the Bank of France now hold more than one-sixth of the gold reserves of the world. France stands second in this respect only to the United States. Her present reserves exceed those of Germany, Italy and Britain combined.

So far this year, there have been 29 forest fires break out in British Columbia. The extent of the conflagrations was limited, however, with resultant damage comparatively light. There were 49 outbreaks during the same period last year.

The body of Robert Bridges, poet laureate of England, was cremated at Golders Green, with such secrecy, that even the closest friends of the family were unaware of it. The poet's widow and daughter were among the few who were present. There were no flowers.

En route to Mayfair, Saskatchewan, where they have purchased land, Louis Nadeau, accompanied by his family and a brother and sister, arrived at North Port from Chiopee, Mass., in a truck fitted up as a home. They are returning Canadians and made the whole trip by motor.

Industry Growing In Value

The value of the mining industry to Manitoba is strikingly shown in a report of the Manitoba Chamber of Mines, which shows expenditures for the year 1927-28-29 as follows: 1927, \$1,335,819; 1928, \$4,833,185; 1929, \$12,302,926. The wages item shows expenses in 1929 to have been eleven times a great as in 1927.

NERVES WERE BAD Could Not Sleep

Endured Years Of Hardships

Austrian Soldier Returns Home, But Is Now Italian Citizen

From the little village of Campi, near Trento, Italy, August Lorenzi, 38, departed, 15 years ago as an Austrian soldier to fight the Russians. He has just now returned after years of hardships to find himself an Italian citizen, because his village, by the fortunes of war, became Italian. Lorenzi was captured by the Russians in 1914. He was sent to Semipalatinsk, then to Tomsk, Samarra, Tambov and Goral. He was made to cut down trees until the work broke his health.

Then he fanned out to a miller, with whom he was working at the time of the revolution in 1917. The Bolsheviks sacked the town and burned the mill. Lorenzi fled at night. He passed several years of intense misery until in 1921 he became a farm hand. It was not until the following year he was able to send a letter to his relatives in Campi. He did not then know that the war was over.

The next year, despairing of ever being able to leave Russia, he married the daughter of a farmer. In 1928 the authorities at Campi, through the Italian ambassador at Moscow, began to exert influence to allow him to return. But the Soviet government, because he had married a Russian, withheld his passport for four years. At last they let him go with only eight dollars and a few articles of clothing.

Winnipeg Newspaper Union

Fashion

(By Eva A. Tingey)

YOUTHFUL AND CHARMING

All Tingey models are created in Paris and sketched by her there. The patterns are made and adapted for American women in New York by American patternmakers.

Junior and their debutante sisters will love this smart little frock. It has box-pleating to finish the skirt and swish lamplight about.

The sections giving such a professional effect are merely tucks, and these can be omitted if preferred. Returning to the box pleats again, you will note that these are large enough to keep well pressed quite easily.

While the collar and cuffs of the original model in scarlet were of cream wash silk (tie in red silk), they would also be very effective in self material or in spotted and printed designs. Navy and white is always stunning for such models too, while greens, light blues, etc., are nice.

Readers reps, crepella, kaasha, granelle, fine serge, broadcloth, etc., are good.

This pattern may be obtained in sizes 14 to 20. It is ready for immediate delivery. It is hand cut.

Pattern price 25c. Be sure to fill in size of pattern. Address Pattern Department.

Canadian Pacific Offer

Attractive Summer Tours

Is your vacation anytime between May 15th and September 30th? If so, why not take one of two very interesting tours—at reduced rates—offered by the Canadian Pacific? Consider first the Eastern Tour and what it has to offer. It will enable the tourist to visit Ontario—with its famous lake resorts, Old French Canada—with its picturesque "habitants," and the Maritime Provinces—with the interesting fisherfolk and their equally-interesting craft. The tourist may travel to these places entirely by rail, or may choose to travel some of the way over the cool waters of the Great Lakes on a great white Canadian Pacific Great Lakes Steamship.

Various Ontario resorts at the lakeside provide fishing and bathing and, in fact, all summer sports. Niagara Falls, the beauty of which attracts so many people from all parts of the world, is only one of the many other salient features of this tour. One may, on this eastern excursion, visit Old French Canada. There the traveller will see the many picturesque Catholic shrines that are scattered along the shore of the country round the "habitants" rolling past on their quaint wagers drawn by oxen. In Montreal the visitor will be amazed by contrast. There, drawn up at the dock, is the latest ocean liner—a product of the new world whilst—almost under the very shadow is the Bonsecours Market, where the French "habitants" sell their farm-produce just as do their relations in the old land. Then again—the excursionist may resolve to pass on as far as the Maritime—as far as St. Andrews where golfers and artists meet. In proportion to its size, there are more magnificent homes and more prominent visitors in St. Andrews than any other town in Canada.

There is Digby, Nova Scotia—the fishing centre. Parrish—the Eastern Gate of Nova Scotia; Yarmouth and Weymouth—two more shipping centres and Old Orchard, Maine—a famous bathing resort.

PACIFIC COAST

Another fascinating excursion is that to the Pacific Coast. This allows of opportunities for the excursionist to see the majestic scenery associated with the Canadian Rockies, to see beautiful Lake Louise, to enjoy a round of golf over the famous course at Banff Springs, or to stay a week or so of the Emerald Lake Chateau—enjoying the fresh mountain air and the scenery that is offered. One of the chief features of this tour in the nature of a side-trip, is a twenty-four hour motor detour which takes the visitor by way of the famous Banff-Lake Louise region, through the Kicking Horse, to the Yoho Valley, perhaps the most glorious and varied motor trip that has ever been offered on the continent. Then on by train through picturesque British Columbia with its multitudinous industries to Vancouver. After Vancouver—Victoria, the capital of the province, renowned for its scenic resemblance to the Old Country. At this city, the famous Crowfoot Golf Course, the Dominion Astronomical Observatory—with the second largest telescope in the world, and Fairbanks' sunken garden, are the chief attractions. At Victoria, two famous excursions are offered—a ten day cruise to Alaska and a seven day cruise of the West Coast of Vancouver Island. To those whose vacation period is short, the famous "Canadian Pacific Trans-Canada Limited" will prove valuable for speedy travel. It is equipped with de luxe all-steel sleeping cars, solarium lounge, women's lounge and bath, men's bath, smoking room, buffet with soda fountain, observation lounge and a valet service. It is finer and faster than ever, and the equipment of each train entails an investment of over a million dollars.

Canada Large Exporter

Of Gypsum Products

Has Developed Trade With Thirty-Five Other Nations

A European trade conference dealing solely with Canadian gypsum products is scheduled to open in London, on April 30th, says R. E. Halre, head of Gypsum, Lime and Alabaster, Canada, Limited, who points out that, "in three years' time trade in Canadian-made gypsum products has developed with 35 other nations and has increased so rapidly that the company has now become the largest exporter of the materials in the world."

Dairy Production Higher

According to L. A. Gibson, provincial dairy commissioner, the winter dairy production in the province of Manitoba for the first two months of 1930 has been the highest in the history of the province, an increase for January of 0.9 per cent. and February 6.4 per cent. over 1929.

Germany's New Idea

A novel experiment in prison life in which "high grade" prisoners will be given two weeks' vacation a year, permitted to accept work from outside employers and given a share in the management of the prison, is about to be tried out in Germany.

Captain Franz Romer paddled a rubber boat from Lisbon, Portugal, to St. Thomas, Virgin Islands, 2,944 miles in 53 days. He was without escort and did not know how to swim.

New York University Given Valuable Papers

Early English Legal Documents Date Back 700 Years

A collection of more than 400 Early English legal documents, some of them dating back 700 years, has been presented to New York University by Judge Moses H. Grossman in the name of Frederick Brown, real estate operator and philanthropist.

Among the collection is a 12-foot parchment "pipe-roll," made of a series of skins sewed together and originally kept in a metal tube. It records that a sheriff, Richard Pyle of Southampton County, collected Crown revenues in 1638 "from the Jews for protection from being defrauded from the knights," and "from the knights for license to defraud the Jews."

Recipes For This Week

(By Betty Barclay)

CREAM OF POTATO SOUP

4 medium potatoes.
2 slices onion.
2 strips bacon.

Wash, peel, cut in cubes, and cook potatoes in enough water to cover until tender. Rub through a strainer. There should be 2 cups mashed potatoes and liquid. Add this mixture (left-over potatoes may be used) to 3 cups of thin cream sauce (3 cups milk, 3 tablespoons flour, 3 tablespoons butter). Season to taste. Add 2 tablespoons chopped parsley before serving.

A different flavor may be obtained by adding catsup, leeks or celery instead of onion. Cut leeks or celery in very thin slices crosswise and cook in with the potatoes.

KIDDIES DELIGHT

3 cups milk.
3 eggs.
4 tablespoons sugar.
1 teaspoon vanilla.
1 teaspoon salt.
Few grains nutmeg.
Few grains cinnamon.

Beat the eggs until very light. Add the sugar, salt, vanilla and spices, then the milk. Stir till the sugar is dissolved, then beat well. Serve cold.

To carry away static electricity from oil trucks, iron chains that dangle to the ground are fastened to the frames.

Selling Its Last Secrets

Quarter Admits Public Into Sultan's Harem At Istanbul, Turkey

Once royal dispenser of terror and mystery to the mystery-loving world, Istanbul is now selling the last of her secrets.

By order of the Turkish Republic, the doors of the imperial harem of the Seraglio palace of the Ottoman Sultans have been thrown open. Infidels and followers of the prophet alike may pass, for the price of 25 cents the threshold whose crossing would once have cost them their lives.

For four and a half centuries, this was the most jealously guarded corner of the vast palace, and of the vast Ottoman empire. Great walls, heavy bronze gates, thousands of soldiers without and hundreds of eunuchs within, kept inviolate the mystery of the imperial harem. Now the public may stalk through the dusky labyrinth of rooms and corridors that seem to trail on and on indefinitely, one after the other, still faintly glowing with the same brocade hangings and silken couches, tiled walls and frescoed ceiling of the imperial days, but empty of the sultans and dowagers, the eunuchs, and thousands of slaves who lived their hidden lives within these walls.

Canadian Literature

Efforts Of Our Writers Should Recieve Loyal Support

The Sherbrooke Tribune says: "Many a man will pay fifty or seventy-five cents for some trashy American magazine, because he cannot make up his mind to buy a single Canadian book. Often enough, moreover, these are the very people who on every possible occasion proclaim their patriotism and their attachment to the things of their own country. Either they are utterly insincere, or their taste is pliantly deformed. The very real efforts of our writers to endow our country with a rich literature, solid and diverse in character, deserve better treatment than this."

Keep Tab On Weight

Approximately one out of every twenty-one adults weigh themselves daily on penny weighing machines according to latest statistics on this subject. At the present time nearly 2,000,000 adults in the United States and Canada put a penny into these scales every day. It is claimed that people weigh themselves in the summer months with about three times the frequency that they do in the winter, although medical authorities contend that it is important to watch one's weight in all seasons.

Physicians have stated that a cough or a cold that lasts more than three weeks merits a general physical examination.

England obtained the pattern for her early churches from missionaries from Italy.

Some men make a specialty of getting into trouble.

DO YOU SUFFER FROM CONSTIPATION?

Countless remedies are advertised for constipation. Many relieve for the moment but they are habit forming and must be continued. Others contain calomel and dangerous mineral drugs, which remain in the system, settle in the joints and cause aches and pains. Some are harsh purgatives which cramp and gripe and leave a depressed after effect. Avoid lubricating oils which only grease the intestines and encourage nature's machinery to become lazy. A purely vegetable laxative such as Carter's Little Liver Pills, gently touches the liver, bile starts to flow, the bowels move gently, the intestines are thoroughly cleansed and constipation poisons pass away. The stomach, liver and bowels are now active and the system enjoys a real tonic effect. All druggists 25c and 75c per box.

Important Letters Now In Dominion Archives

Canada Has Most Of Letters Signed By Sir John A. MacDonald

The first public document signed by Sir John A. MacDonald has been added to the voluminous collection of his papers gathered together by Dr. G. Doughty, curator of the Dominion archives. It is an affidavit signed by Sir John on October 6, 1834, upon his appointment as a poll clerk in the Upper Canada election in Prince Edward county. He was 19 years old at the time.

With the receipt of this letter, the Dominion archives now houses most of the important letters written by the first premier of Canada. Among the papers is the first draft of the British North America Act, in Sir John's handwriting.

Parachute Opens Itself

Was Pronounced Success In Test At Curtiss Field Recently

An automatic parachute which opens of its own accord after a fall, was demonstrated successfully at Curtiss Field by John Runger, a professional parachutist. Runger, his hands tied behind him, jumped from a plane at 2,000 feet. He landed safely in a tree.

So pleased was Runger with the chute that he said he would jump from 20,000 feet on one. It was invented by John Ruby.

Would Rotate Building Stones

Suggesting that the various Canadian stones be used in rotation on projected Federal buildings, the Industrial Development Board of Manitoba has devised a plan to lay before the Dominion Government in which it is urged that future plans for building operations take into consideration the possibility of having various Canadian stones used in rotation, including the Manitoba Tyndall stone.

One of the attractions at Cannes, France, is a woman who lives on ground glass in a glass cage.

The world produced 1,323 million barrels of crude oil in 1928.

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

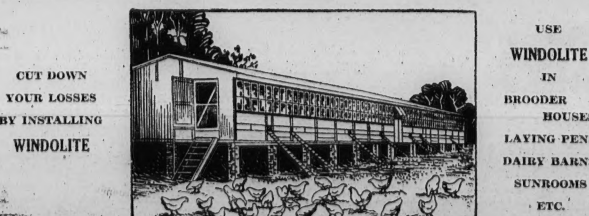

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

When Babies FRET

There are times when a baby is too fretful or feverish to be going to sleep. There are some pains a mother cannot pat away. But there's no time when any baby can't have the quick comfort of Castoria! A few drops, and your little one is soon at ease—back to sleep almost before you can slip away.

Remember this harmless, pure vegetable preparation when children are ailing. Don't stop its use when Baby has been brought safely through the age of colic,

diarrhea, and other infantile ills. Give good old Castoria until your child is well. In their case, whenever coated tongues tell of constipation; whenever there's any sign of sluggishness that needs no stronger medicines to relieve. Castoria is pleasant-tasting; children love to take it. Buy the genuine—with Chas. H. Fletcher's signature on wrapper.

Miss Lizzie rocked violently for a moment, while she wiped her streaming face with a corner of her apron. "I don't seem to have a handkerchief," she gasped. "Maybe I dropped it on the way."

"This seems to be your day for dropping things," smiled Grandma. "I saw your petticoat come off less'n an hour ago."

"I hope to goodness no one else saw it," replied Miss Lizzie. "Since I got so fleshy my petticoats all need new bands, and I ain't had time to fix 'em. I had a piece of string run through that buttonhole, and it went and busted on me. I was thankful I hadn't got as far as the meat market where I was going, or 'twould have been all over town by now. Well, Grandma, I've got some news—more news than Wickfield's seen since Noah boarded the Ark: Edgar Purdie is suing Luella Moore, over to South Wickfield, for breach of promise! He's got evidence that he give her a costly present and she won't return it after refusal to be his wife! Now what do you think o' that?"

"I think Luella's got more sense than I gave her credit for," responded Grandma. "A woman that's smart enough to get any sort of present out of Edgar Purdie, deserves to keep it. Did you hear what 'twas he gave her, Lizzie?"

Grandma was so absorbed that she didn't notice a near-dog-fight across the street.

"It was beads," replied Miss Lizzie promptly. "A long string of fancy yellow beads that cost the deacon a week's pay or more. Oriental, he called 'em; though Sarah Bennett, who see 'em with her own eyes, says they don't look one mite better than what you can get at the five-and-ten cent store up in Portland. Seems the deacon carried 'em with him when he asked her; and like a fool he give 'em to her first. Guess he thought they'd sort of pave the way for intentions; and according to him she seemed real pleased—said yellow was her favorite color, and let him fasten 'em around her neck himself. As—What you laughin' at, Grandma?" broke off Miss Lizzie, as the old lady suddenly gave way to mirth.

"I was just thinking how silly Edgar Purdie must have looked when he fastened those beads around Luella's neck. Go on, Lizzie. Did he ask her then?"

"I presume he did, it bein' what you might call the proper moment; but according to him she sort of put him off. And here's where the trouble commences—trouble for Luella, I mean. She let him kiss her! Of course he went off thinkin' it was good as settled; but when he drove clear to South Wickfield next evenin' for a little love makin' after the children was in bed, she'd changed her mind! They had words, and he asked for the beads back and she wouldn't give 'em up—said he'd made her a present of 'em, and so fur's she knew there wasn't no string tied to 'em. He come back with a madder a wot hen, and vowin' to get the law on her. And next mornin' he put the case in Lawyer Garfield's hands. He's suin' for two thousand dollars and possession of the beads. They say Gam Garfield tried to calm him down, and means to settle it out o' court if Luella's reasonable. Now did you ever hear the beat o' that?"

"No," replied Grandma soberly. "I never did. But what'd Ed Purdie do with those beads if he gets 'em back, I'd like to ask? He can't wear 'em himself, Lizzie, and they wouldn't be any special use in a missionary barrel, which every one in Wickfield knows is the only charity he ever gives to, and that only because he

can get rid of his wornout clothes and credit for being charitable at the same time."

"I dunno but what a string o' beads would be more use to the heathen than that old silk hat the deacon found up attic and donated, last time we packed a barrel," answered Miss Lizzie. "It took up a powerful lot o' room, though I put a cracked butter dish inside it, and some woolen stockings. Savages are partial to beads, so I've always heard, so like as not the heathen are, too; and the beads would cover a little of their nakedness, which a hat wouldn't."

Grandma's lips twitched with amusement as she replied: "Somehow, Lizzie, I don't think Ed Purdie is counting on giving those beads to the heathen, Luella Moore isn't the only pebble on the beach, as they used to say, and if she won't have him, he's likely to look further. Maybe he'll ask you."

"Me?"

In her indignation Miss Lizzie tried to rise, but as she was what they call "heavy" in Wickfield, and the chair was a small rocker with arms, which showed a tendency to rise with her, she sank back helplessly and said: "I'm ashamed of you, Grandma. Davies! Why, I wouldn't take Ed Purdie, not if he was covered entirely with beads like the bag that city woman carried to the strawberry festival."

"There! there!" soothed the old lady. "I didn't mean to get you all stirred up. If he did ask you, Lizzie, it would be the only sensible thing he's done since he asked his first."

"Well," sighed the caller, "sensible enough to smile at this tribute. I dunno but what you're right, though so fur's I know, no man has ever agreed with you, Papa's its just as well, I've always thought a proposal would be a terrible embarrassing thing to live through."

Grandma's eyes twinkled. "So it might be, Lizzie, under certain circumstances," she admitted. "You got to go this quick?" as Miss Lizzie made another effort to leave the chair. "If Charman was only home I'd ask you to stay to dinner; but I guess we won't have much but a snack. Let's come over to South Wickfield, with Jim Bennett to collect a mortgage or something."

"I seen 'em start?" With a firm wrench Miss Lizzie extricated herself, and arose. "I'm glad that Jim has come to his senses and dropped that darling girl. He ain't taken her out but once since the strawberry festival, and then his mother invited her to supper and he had to beau her home. And she leaves town the last of the week. I declare, Grandma, it'll be a load off my mind, havin' her go. That dog-bait is a blot on the landscape, and when I see that young doctor of yours walkin' home with it after mill time last night, I decided 'twas time to do something about it, or my name's not Lizzie Ann Baker."

"Did he walk clear to the house with her?" questioned Grandma eagerly.

"That he did! And lallygagged around the gate for fifteen minutes. Mrs. Merry says she's a vampire whatever that is—nothin' respectable. I'll be bound. I meant to look it up in the dictionary, but I clean forgot. Dear me sue! I wish Ed Purdie would ask her!"

"My stars!" breathed Grandma, awed before this inspiration. "I wonder he hasn't thought of it himself, Lizzie. There's no fool like an old fool; and those yellow beads would have been real becoming to that darling girl. Thanks for lettin' me know the news, my dear; but don't you run so fast again or it's likely to be a matter of life and death—to you."

(To Be Continued.)

Storekeeper: "Shall I draw the chicken for you, madam?"

Young Bride: "No, thank you. Your description is quite sufficient."

FROM MOTHER OF EIGHTEEN

Read How This Medicine Helps Her

Cardston, Alberta.—"I am fifty-eight years old and the mother of eighteen living children. We live on a farm and I am a very healthy mother considering that I have such a big family to work for. The druggist first told me about Lydia E. Pinkham's Vegetable Compound and I have depended on it for many years. When I had this picture taken, the photographer was telling me about his wife's ailments and after I told him about the Vegetable Compound he went to the drug store and bought her two bottles. Mrs. Bertha Saltschach, St. Cardston, Alberta.

When I had this picture taken, the photographer was telling me about his wife's ailments and after I told him about the Vegetable Compound he went to the drug store and bought her two bottles. Mrs. Bertha Saltschach, St. Cardston, Alberta.

HEADACHES

Needless pains like headaches are quickly relieved by Aspirin in a matter of five or ten minutes. And no matter how suddenly a headache may come upon you, you can always be prepared. Carry the pocket tin of Aspirin tablets with you. Keep the larger size at home. Read the proven directions for pain, headaches, neuralgia, etc.

Vienna Uses Science In Detecting Criminals

Can Convict Man Who Believes He Has Left No Trace

Some may be inclined to smile at the idea of Dr. Wilfred Dermo of Montreal, of a criminal laboratory for Ontario, but it is a valuable suggestion. Science has played an important part in murder trials, particularly in poison cases and in the analysis of spots of blood, but a criminal laboratory can go much further than this.

In no country has science been developed to such a fine art in criminal detection as in Vienna. Here is a case in point.

A man was found murdered with a pocket knife in his heart. The owner of the knife proved that it was stolen from him some months before, and that he had nothing to do with the murder. The knife was turned over to a professor at the university, who took it to pieces and analyzed the debris which had collected between the blades from the pocket of the man who had been carrying it. He found tiny pieces of twist from the lining of the coat pocket, and came to the conclusion that the coat was of a kind of yarn used by English manufacturers in the making of what are called "Norfolk coats."

With that clue, the police set about finding a Vienna tailor who sold English suits of that kind. They found him, and then by examining his books they checked up on the movements of all the men who had bought Norfolk suits within a certain time. Ultimately, they laid their man by the heels and he was convicted.

A criminal laboratory can convict a man who has committed what he may consider a perfect crime without leaving any trace.

Displayed His Originality

Mark Twain Started Literary Career On His Brother's Paper

Long-sought newspaper files containing original first works of Mark Twain, famous humorist, and described by him in his autobiography as representing "my first literary venture," have at last been discovered, in Hannibal, his native home. They reveal the boy, Sam Clemens (Mark Twain), in his teens, as substituting as editor of his brother's newspaper there, and striving to "liven up" the columns of the paper with his own material. His methods reveal him as even then richly possessed of the ingenuity he later insisted in his famous fiction characters, Tom Sawyer and Huckleberry Finn.

The return of Orion, to discover that his young brother had been making the paper "spicy," is indicated in an editorial by the editor, May 13, 1853, saying that "Rambler and his enemies must stop their stuff." This editorial edit seems to have ended Mark Twain's fun, and what probably were his very first literary and journalistic efforts.

Was Queen Alexandra's Friend

Honorable Charlotte Knollys, companion and intimate friend of the late Queen Alexandra for more than half a century and one of the best known figures in court circles, is dead at the age of 95. Queen Alexandra frequently referred to her as "my beloved Charlotte," and on one occasion created a precedent by refusing to leave London for Sandringham at Christmas time because of the illness of her friend.

Taft's Will Filed

The will of William Howard Taft, former president of United States and former chief justice of the Supreme Court, has been filed. It leaves most of the estate to his widow with the exception of a few individual legacies.

Count Tolstoy, the Russian author, always went hatless and barefooted no matter what the weather.

Made Long Journey

Tern Banded In Labrador Was Seen In Southern Africa

A common tern, member of the gull family, was banded in northern Labrador by Oliver H. Austin, Jr., in July, 1928. Fourteen months later it was seen and examined at the southern tip of Africa on the Indian Ocean, 9,000 miles away, which is thought to set a record.

The tern, or sea swallow, is usually smaller than the gull. Its bill is more slender, its feet not so strong, and its flight more graceful and dashing. The common tern is pure white with a cap and mantle of bluish gray and is sometimes hunted for its feathers. The all-white species live on Pacific islands; those with darker coats are widespread.

KEEPING BABY LOVELY AND WELL

Some babies thrive from the hour of their birth while others make little progress as to be the cause of much anxiety. As a rule it is the most delicate child. They are a mild but thorough laxative which banish constipation and indigestion; break up colds and simple fevers and allay the pains which accompany the cutting of teeth. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Fame Is Transitory

People Who Perform Unimportant Exploits Soon Forgotten

An English adventurer proposes to dive off the Ambassador Bridge at Windsor, a distance of 160 feet above the water. The honor to be won by such exploits is extremely transitory, as was proved in the case of Steve Brodie. A gentleman once took his son to the spot on the Brooklyn Bridge from which Brodie had made his celebrated leap and said: "Yes, my boy, this is where Brodie jumped off the bridge." "Jumped off it?" echoed the boy. "I thought he jumped over it."

Worms cause fretfulness and rob the infant of sleep, the great nourisher. Mother Graves' Worm Expeller will clear the stomach and intestines and restore healthfulness.

A Calgary aviator flew his plane both ways over the highest peaks of the Rockies. The more these things happen the more veneration we have for the men who went through and over the Rockies with dog-team and pack-sack.

If Skinny, Beware, Says Doctor. Gain Quick

New Ironized Yeast Adds 5 to 15 Pounds in 3 Weeks. New Health, Strong Nerves—Or No Cost.

"Skinny folks subject to many grave diseases," says an eminent physician. When sick they lack reserve strength and many die. Don't run risk of dangerous disease from skininess. New Ironized Yeast adds 5 to 15 lbs. in 3 weeks. End nervousness, constipation, indigestion over night. Clears skin like magic. New pep first day.

Two great tonics in one. Weight-building Malt Yeast, and strengthening Iron. Far stronger than unmediated yeast. Results in half time. Get new health and weight quickly. Get pleasant tablets of Ironized Yeast from druggist today. Feel great tomorrow. If not delighted, manufacturer refunds your money.

Little Helps For This Week

"They that seek the Lord shall not want any good thing."—Psalm xxxiv. 10.

Father! replenish with Thy grace This longing heart of mine; Make Thy quiet dwelling-place, Thy sacred, innmost shrine! Forget that oft my spirit wearies Her time and strength in trivial cares; Enfold her in Thy changeless peace. So she from all but Thee shall cease.

—Angelus Silesius.

God is Alpha and Omega in the great world; endeavour to make Him so in thy little world. Make Him thy evening epilogue and thy morning prologue; practise to make Him thy last thought at night when thou sleepest, and thy first thought in the morning when thou awakes; so shall thy fancy be acuated in the night, and thy understanding rectified in the day. So shall thy rest be peaceful, thy labors prosperous, and thy death glorious.—Quarles.

It Testifies For Itself.—Dr. Thomas' Electric Oil needs no testimonial of its powers other than itself. Whoever tries it for coughs or colds, for cuts or contusions, for sprains or burns, for pains in the limbs or body, will know that the medicine proves itself and needs no guarantee. This shows why this Oil is in general use.

Interested In Grain Show

The commissioner of agriculture of the state of Montana writes that there is much interest in the World's Grain Show in that state. The officials are encouraging growers to enter the contest most whole-heartedly and to begin the preparation of exhibits this season.

PASTURING SWEET CLOVER

As soon as the cereals are seeded many farmers will be concerned themselves with the question of pasture crops. Sweet clover is bound to come under consideration. This crop has had some adverse criticism levelled against it due to unfortunate experiences, by some, the claim being made that it caused bloating and that often the stock will refuse it.

In this connection a statement made by C. O. Asplund, who for some years has managed the provincial demonstration farm at Raymond, is of interest. Mr. Asplund, dealing with this phase of sweet clover growing, says:

"Quite a number of practical stockmen with whom the matter of pasturing sweet clover has been discussed have indicated several objections to the crop, the two most serious being bloating and lack of palatability. In respect to the former it has already been stated that with one exception in four years we have had no trouble. Our experience has lead us to adopting a method of management of our stock that may or may not be the secret of success.

"The stock are placed on the pasture on May 15th. From that time on they remain continuously on the pasture during all sorts of weather. The cows are only taken off previous to milking time, and occasionally during cold wet spells. During this time

all of the stock have the freedom of the barn yard, where they come for water and shade during the warm part of the day. Roughly our system, if it can be so called, is to allow the animals themselves to choose when they shall eat; as a result, there is no intense hunger and consequently no gormandizing.

"It has been observed that most of the grazing is done in the morning before ten o'clock and also in the evening after the intense heat is over. By confining the animals to sweet clover alone they become accustomed to it early in the season, and this may have something to do with the prevention of bloat. As to its palatability, we can only say that they eat it and do well on it and that should suffice. In connection with this point another observation may be made. Every autumn when the freedom of the fields is given to the stock we see them spending a good portion of each day on the clover field."

YOUR PRINTING NEEDS

The News printing office is now in a better position than ever to attend to your printing requirements. A good quality of stock used on all jobs, and the printing is as good as you can get anywhere. We meet city prices, and in many cases are considerably lower, stock and workmanship considered. May we fill your next order?

Provincial Apiarist Appointed

The appointment of S. O. Hillerud to the office of provincial apiarist for the Province of Alberta, is announced by the Honorable George Hoadley, Minister of Agriculture.

Mr. Hillerud brings to his new position extensive experience and training in matters pertaining to agriculture. He is a graduate of the University of Alberta, having received the degree of B.S.A. in 1920. Following this he spent two years in Ontario working under direction with some well known bee-keepers as J. L. Evers, F. W. Krouse, and Prof. G. L. Jarvis, and in taking post-graduate work at the Ontario Agricultural College. Later he spent some time with the State Apiarist Sippell, of Montana, and also in California. For the past two years he has been a provincial inspector of apiaries in Alberta, and lecturer in apiculture at the Provincial Schools of Agriculture.

Have you some piece of machinery, a set of harness, a buggy, or some other farm implement, for which you have no further use; but which might be of value to someone; or do you wish to trade or buy one of the above articles? Use classified ads, they usually get results and are an inexpensive way of buying or selling used articles.

Main Street

The Imperial Lumber Co., are building a new lumber shed and office in their yard on First Avenue.

Mr. J. W. Milburn returned Monday after spending most of the winter in Ontario.

A son arrived at the home of Mr. and Mrs. Jas. Elliott, Wednesday, May 7th, both doing nicely.

The Irma Ladies Aid met at the home of Mrs. E. Simmons, Thursday afternoon.

Mrs. M. L. Curfman has returned after making a business trip to the City.

Mrs. Chase and Mr. and Mrs. J. U. Allen made a business trip to Edmonton and Millet by motor. Mrs. Main of Millet returned with them.

Mr. Kiefer is starting the regular Saturday night dance in Irma Saturday night, May 17th. Coultman's orchestra will furnish the music.

The carpenters are busy now making alterations for talking pictures at the Irma theatre. Mr. Kiefer states admission for adults will be 45c and he expects to be ready to start talks in two or three weeks.

Mr. W. A. Gamble, of Forestburg, Alta., arrived in Irma Saturday to accept the position of teller in the local bank in place of Mr. E. Mulholland, who accepted a position with the Bank of Italy, at San Francisco, while away on his vacation.

M. E. Price wishes to announce the Piano Recital to be given by her pupils of Irma and Jarow, in the United Church at 8.15 p.m. on May 23rd. Admission: Adults 35c, Children 15c.

Tuesday night the district was again visited with a heavy rain which stopped seeding temporarily. Practically all the wheat has been sown and most of the farmers are preparing land for oats and barley. Seeding of the coarse grains will be general next week.

Sunday morning while Mr. J. Levett was driving north on Main street Mr. J. Donoghue came along on Second Ave., and the two cars came together with considerable force. Both cars suffered bent fenders. Mr. Donoghue's car coming out the worse of the impact. Fortunately no one was injured in the accident.

Mr. C. C. King, of Regina, stopped off at Irma Tuesday to visit his parents after spending two weeks in Edmonton where he was called to visit his brother Norman, who has been dangerously ill. Mr. King left for his home in Regina, Thursday. Before leaving Edmonton Norman had apparently taken a turn for the better but it will be some time yet before he can expect to return home.

Tuesday Mr. S. C. Hillerud, Provincial Apiarist, was in Irma on business connected with his department. Before coming to Irma Mr. Hillerud visited Sedgewick and interviewed some of the beekeepers who are anxious to have a field day held in this part of Alberta, where those interested in bee-keeping might get together and exchange ideas. Mr. Hillerud has agreed to return to the district during June when arrangements will be made to meet in one of the largest bee yards and he will give a demonstration on swarm control and answer any other questions that might be asked. Mr. Scott, district agriculturist of Sedgewick will have charge of the arranging of the meeting and further notice will appear as soon as the date has been set.

HOLDEN CO-OP. CREAMERY

APPOINT LOCAL AGENT

Mr. R. Newell, of the Holden Co-operative Creamery was in Irma this week and arranged with Simmons Brothers to look after the shipping of cream from Irma to Holden. The Holden Co-op. Creamery distributed \$1900.00 among their creamshippers last year, and with increased volume they expect to be able to give the farmers the highest value for his cream that any creamery can pay.

The Board of Trustees of the Irma School District No. 2485 wish to announce that they have received an offer for the purchase of the old cottage school and same will be sold to the highest bidder on Thursday, May 15th at 8 p.m. in the Irma Fire Hall, subject to a reserved bid.

Terms cash. Building to be removed from the school grounds at once. For further information see Mr. Hedley, Chairman of the Board or the undersigned:

Chas. Wilbraham, Secretary

"And No Back Talk"

Daughter: "Yes, I've graduated, but now I must inform myself in psychology, philosophy, bibli—"

Practical Mother: "Stop! I have arranged for you a thorough course in roatology, patchology, stichology, darnology, and general domestic hus-tology. Now get on your working clothesology."
